Ref: Internship Letter for Java Full Stack Development

Dear Ritesh Kumar Soni,

We would like to congratulate you on being selected for **Java Full Stack Development Internship** position with **Smart Programming, Mohali** as per the following terms & conditions.

1. Your appointment takes effect from 2nd June, 2025.
2. Internship duration is for 6 months from the date of joining.
3. As we discussed during the interview process, this is non-paid academic internship during which you will be expected to provide six hours per day.
4. Stipend can be provided as per your performance and the task provided to you during the working hours.
5. The internship is viewed by Smart Programming as being an educational opportunity for you, rather than a part-time job. As such your internship will include training/orientation and focus primarily on learning and developing new skills and gaining a deeper understanding of concepts through hands-on application of the knowledge you learned in lab.
6. Since you are interned with us and no security and training fees is taken, if you get employed with any other organization at any time during your internship, it is important that you notify us one month before joining other organization. This will assist us with the processing of paperwork and help us avoid delays in awarding your stipend.
7. You will be eligible for 1 day casual leave per month.
8. You will maintain confidentiality of the various authorities and any information/tasks/company projects shared with you.

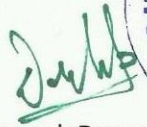

9. Please report and verify with all your certificates, educational and academics to HR Department on or before 2nd June, 2025, failing it would be withdrawn. I would be grateful if you could complete and return to us as soon as possible.
10. If this is acceptable on the aforesaid terms & conditions, you are advised to sign a copy of this letter as a token of your acceptance of the internship. If you have any questions, feel free to contact us.

Again, congratulations and we look forward to working with you this coming year and hope you will soon feel part of the team.

Thanking you

Regards

Deepak Panwar
(Training & Development Head)
